

Non-rusting and highly exible metal protection conduit; extremely robust; double folded metal prole

### Applications

- cable protection: cable protection conduit, cable protection tube, cable protection hose, electric installation, switch cabinets, switch cabinet installation, cable harnessing/ cable assembly

### Properties

- IP 40 to EN/ IEC 60529
- good screening factor (EMC)

- highly flexible
- increased resistance to tear, pressure and impact
- conforms to RoHS guideline

### Temperature range

- up to 1.100 °F

### Design

- Metal hose
- profiled metal strip, stainless steel (INOX)
- twice rolled profile

### Delivery variants

- further diameters and lengths available on request

Nominal width connecting part (in)	I.D. (mm)	outer Ø (in)	Bending radius (middle of hose) (in)	Weight (lb/ft)	PU (ft)	Order No.

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at [www.norres.com/us/technology/](http://www.norres.com/us/technology/). NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
