

Plastic conduit connector with integrated inner socket; rotary mounting flange

Applications

- cable protection: cable protection screw connection for assembling of a fitting protection hose, cable protection tube, cable protection hose, electric installation, switch cabinets, switch cabinet installation, cable harnessing/ cable assembly

Properties

- IP 54 to EN/ IEC 60529
- self-locking conduit assembly
- inner socket protects cables from damage

- easily and quickly fitted
- one-piece
- good resistance to chemicals
- flame-retardant
- designed according to EN 60204 for plant and mechanical engineering
- conforms to RoHS guideline

Temperature range

- 15°F to 230°F

Design

- accessories
- rotary plastic (PP) mounting flange with fastening holes

Delivery variants

- gray (standard)
- special colors: full colored

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at www.norres.com/us/technology/. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
