

CLAMP 212

Bridge clamp for attaching externally corrugated spiral hoses

Properties

- practically leak-proof and secure clamping with special bridge geometry
- easily and quickly fitted

re-usable

- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

Design

- Quality: W2; Clamp strip: stainless steel 1.4301 = AISI 304; Screw: galvanised steel; Body: stainless steel 1.4016 = AISI 430; Bridge: stainless steel 1.4301 = AISI 304 (INOX)
- in accordance with DIN 3017

Delivery variants

- further diameters available on request

Suitable for hose I.D. (in)	Clamping range (in)	Band width (in)	Order No.

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at www.norres.com/us/technology/. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68 °F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
