

Waterhose

Applications

- Suitable for salt and hot water
- for use on construction sites, for various industrial applications and in shipyards

Properties

- According to the norm EN ISO 1307:2008
- wall and inner tube electrically conductive $<10^6 \Omega$

- UV and ozone resistant
- Very flexible and kink resistant
- burst pressure 60 bar

Temperature Range

- -40°C to 95°C
- short time to 110°C

Design

- Inner tube made of EPDM
- Outer layer made of EPDM
- Outer layer smooth and extruded
- Textile plies
- Inner tube extruded

Delivery variants

- black inner tube, black exterior wall, 4 yellow stripes
