PROTAPE® PUR 327 PP

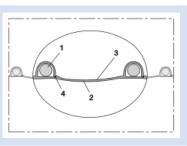

Applications

- municipal vehicle: sweeper, sweeping machine
- municipal vehicle: lawn mower, slope mower, leaf blower/ leaf collector
- magnetic resonance scanner, MRI / computer tomography scanner, CT: air supply hose

Properties

- super-light weight
- highly flexible
- highly abrasion resistant
- crush resistant

Crush resistant hose

• microbe resistant

- very good low temperature flexibility
- Grounding wire for discharging of electrostatic charging
- Permanently antistatic wall: in accordance with ISO 8031 electrical and surface resistance approx. $10^9\,\Omega$
- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

Temperature range

• -40°F to 195°F

Design

- PROTAPE[®] tape hose
- special plastic-profile supporting spiral
- wall: special premium ester-polyurethane (Pre-PUR $^{\circledast})$
- wall thickness 0.015 in approx.
- grounding wire

Delivery variants

- customer-specific branding
- further diameters and lengths available on request
- transparent (standard)

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at <u>www.norres.com/us/technology/</u>. NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimatewer of the individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as general guide only.
