

## PVC hose

### Applications

- flexible hose/ ducting for liquids and for gases
- hose/ tubing pump
- industrial washing machine: washing water hose
- compressed air hose, cooling water hose, water hose
- heating hose: interior hose for media transfer

### Properties

- highly flexible

- crush resistant
- good resistance to alkalis and acids
- good resistance to chemicals
- conforms to RoHS guideline
- REACH according to --> Technology / Technical Information / REACH

### Temperature range

- 5°F to 140°F

### Design

- NORFLEX® design
- wall interior and exterior smooth
- wall: soft PVC

### Delivery variants

- further diameters and lengths available on request
- transparent (standard)
- special colors: full colored
- customer-specific branding

## Accessories

Positive and negative pressure ratings are the recommended maximum operating values. Products can be manufactured to meet higher operating values upon request. The bend radius is calculated from the center of the hose in an arched position. Additional information at [www.norres.com/us/technology/](http://www.norres.com/us/technology/). NORRES reserves the right to modify technical data at any time. Technical data based on tests at 68°F and are approx. values. Proper use and maintenance of NORRES hoses is the sole responsibility of purchaser and ultimate user of the product. The individual conditions, applications and the number of variables make firm recommendations technically impossible. This information is intended as a general guide only.
