

## Thermoplastic suction hose

### Applications

- for water, fertilizer and seeds
- flexible, translucent hose for suction of water under light working conditions for both industrial and agricultural applications
- Use on light vacuum pumps as pond hose
- Use on construction sites for water treatment
- Very good suitability for the passage of slurry on slurry injectors, trailing shoe systems and as a seed feed hose

### Properties

- Extremely flexible construction
- according to the norm EN ISO 1307:2008

### Temperature range

- 5°F to 140°F

### Design

- PVC inner layer
- PVC outer layer
- slightly corrugated construction cover
- rigid PVC spiral
- smooth interior

### Delivery variants

- green-transparent inner tube, green-transparent exterior wall, white spiral (standard)
