

Clamp profile hose for fastening the roof foil to biogas plants with air

### Applications

- specially designed for use in the agricultural industry

### Properties

- very good resistance to ozone and weathering

- burst pressure 18 bar
- According to the norm EN ISO 1307:2008

### Temperature Range

- -30° C to 100° C

### Design

- Inner tube made of EPDM
- Outer layer made of EPDM
- Textile plies

### Delivery variants

- black inner tube, black exterior wall

I.D.	outer Ø	Wall Thickness	Operating pressure (20° C)	Weight	Production Lengths	Order No.
(in / mm)	(mm)	(mm)	(bar)	(kg/m)	(m)	
- / 28	36.00	4.00	6,000	0.57	120	8311-028-002

Overpressure and underpressure are recommended threshold operating values, products can be subjected to higher loads upon request. The bending radius is measured through the inside of the hose arch. The right to make technical modifications is reserved. All values determined at 20° C and are approx. data.
